

Impressions

ANNUAL NEWS LETTER 2018-19

PAZHASSI RAJA NSS COLLEGE, MATTANNUR

Our Vision - To excel in quality and to ensure equity in the field of higher education

PRINCIPAL'S DESK

"Impressions" was put together by the dedicated faculty members and students this year as well, like the last ten years, and it will be, the next year as well.

PRNSS College is a 55-year-old institution where all the people associated with it all these years, from our security guards to the students to the teachers to the principals, believe in delivering their best.

That's exactly why our college is, undoubtedly, one of the best in Kerala. I've had the privilege of being the chief editor of "Impressions" for three years now but this would be the last time. As I'm signing off from official duties in another month, I look back and realize we have achieved a lot in the past year, together. Excellent University results including two ranks and high pass percentage in most subjects, how dedicatedly both NSS and NCC volunteers worked, the accomplishment of continuing education sub centre, the four national-level seminars we conducted, many many achievements in sports and even the funded celebrations of important days are some I would like to mention.

The key idea at PRNSS College has remained the same throughout - to concentrate on providing holistic development of our students, and preparing them for the cutthroat competition outside. I hope all the stakeholders of this great institution will continue to come together to ensure that the quality of everything we do here is top-notch.
